

Quality Policy

“We, at Frauscher Sensor Technology India Private Limited, strive to deliver innovative, safe, reliable, quality and cost-effective products & services to our customers with a focus on customer satisfaction, continual improvement and compliance to standards”

The above policy is implemented through -

- Manufacture of safety relevant components for railways within a framework that ensures high and reproducible quality.
- Delivery of Products and Services to meet the customer expectations with a focus on failure prevention.
- Ensuring Compliance to relevant Statutory & Regulatory Requirements.
- Maintaining a well-designed quality management for our products and services.
- Preserving the highest quality level and maintaining a process of continual improvement for the sustained development of our company.
